JOHNNY WONDER
Q. "HOW DID EARTH GET ITS NAME?"
A. The name "earth" comes from the Old English word "eorthe." Before people had the idea of the earth as a planet, our word "earth" simply meant the ground on which people walked. The word later came to mean the planet itself, as well as the ground. The other planets in our solar system were named for the old Greek and Roman gods and goddesses. Venus, for example, was named for the goddess of love and beauty. Mars was named for the god of war. Jupiter, the largest planet, was named after the king of the ancient Roman gods.
You can win a World Almanac if your question is selected. Send your name and age to JOHNNY WONDER, c/o THE WORLD ALMANAC, P.O. Box 1316, Santa Cruz, CA 95061.
